

# WIL SELECT SITE FOR BIG NEW HOTEL IN JASPER PARK RESERVE

Grand Trunk Pacific Railway, Officials in City En Route West.

## FOUR MOUNTAIN CLIMBERS HERE.

Party From Smithsonian Institute to Make Scientific Research.

Four of the most celebrated mountain climbers in the world are in the city today preparing for an invasion of the mountains west of Edmonton. Another party of four from the Smithsonian Institution, Washington, D.C., an institution whose object is to assist men of science in original research, and a third party of four Grand Trunk Pacific railway officials, are also here.

The mountain climbers are W. L. Morrison and Dr. C. H. Merriam, of England, and A. O. Wheeler, president of the Canadian Alpine Club, and H. G. D. Kinnear, of New Westminster, the first man to scale Mount Robson, the highest peak in the Rockies. The Smithsonian men are Messrs. C. D. Walcott, J. Hollister, Hagen and Keith. The railway party will be joined by C. D. Walcott, Mr. Secretary of the Smithsonian Institution. The Grand Trunk Pacific party is made up of W. P. Morrison, of Winnipeg, general manager; H. G. D. Kinnear, of New Westminster, general administrative manager; R. W. C. Lett, travelling passenger and collection agent; and H. J. Lamont, travelling passenger agent, both of Winnipeg.

**Site for Mountain Hotel.**  
The Grand Trunk party will proceed west end of steel and will select the site in Jasper Park for the first mountain hotel to be built by the railway company. Mr. Morrison stated to the Bulletin this morning that the site of the hotel in all probability will be in the vicinity of the hot springs, which are about eight miles from the main line. The hotel, which will be erected in Jasper Park at the hot springs, will be the first of several which the railway company intends to build in the mountains. The second hotel will be somewhere in the vicinity of Mount Robson.

The Smithsonian men expect to spend the greater part of the summer in scientific research in the mountains.

**Alpine Club Next Year.**  
Mr. Wheeler, the president of the Canadian Alpine Club, and Mr. Kinnear, will be engaged in making a geographical survey of the mountains in Jasper Park, Mount Robson and the Yellowhead Pass.

Mr. Morrison and Dr. C. H. Merriam, the two English mountain climbers, have set themselves the task of scaling Mount Robson. They have twice before been in this country, and two years ago made an attempt at the mountain. They failed, owing to the fact that they were overtaken by severe snowstorms. They hope this time to be successful.

Mr. Hinton stated to the Bulletin, when asked what progress is being made on the plan for the new million dollar hotel to be erected by the Grand Trunk Pacific railway at the hot springs, opposite the Edmonton club, that satisfactory reports have been received from the different parties regarding the plans and specifications and that the work will be called in a short time.

**Fear of Invasion by Refugees.**  
Edison, June 29.—The Minister of War has called out 100,000 men to serve of the first division to reinforce the Canadian frontier in the event of an alarming report, which are again received of the invasion of the western by Portuguese refugees who are new in Galicia.

## Canadian Burned At The Stake By Mexican Bandits Near Fort Sumner

Shawnee, Oklahoma, June 29.—Robert Swayze, a Canadian, was burned at the stake by Mexican bandits near Fort Sumner, New Mexico, on June 15, according to a letter received here today from Mrs. Edna Hinchman, formerly of this city, and mother-in-law of the dead man.

He was killed because he refused to reveal the hiding place of a large amount of money that had been left to him by a Mexican railroad which employed him; the letter said "Mrs. Hinchman has notified the British Government of the case."

## Statistics Show a Half Year of Great Progress

First Six Months of 1911 Establish New Records in Bank Clearings, Customs Receipts, Building Permits, Street Railway Revenue, etc.

Progress unexampled in the history of Edmonton is reflected in the statistics of public business for the first half of the year 1911 ending today. Bank clearings for the half year reached the enormous total of \$51,812,725 as compared with a total of \$29,222,219 for the first six months of 1910, a net increase of \$22,590,506, or 77.3 per cent. The bank clearings for the month of June alone were \$8,683,401, an increase of \$1,187,221, or 13.7 per cent, over the clearing for June, 1910, which was \$7,496,180.

	June, 1910.	June, 1911.	Per cent.
Bank Clearings	\$29,222,219	\$51,812,725	77.3
Customs Duties	1,046,725	1,222,502	22.5
Stamp Duty	37,821	49,174	29.6
Homestead Entries	2,462	3,179	29.1
Per cent. increase			
Bank Clearings	\$5,310,379	\$6,588,401	23.3
Customs Duties	29,512	40,000	33.9
Stamp Duty	232,079	300,000	29.3
Homestead Entries	611	823	34.7

	June, 1910.	June, 1911.	Per cent.
Street Railway—			
Passenger Carried	211,387	506,145	140.0
Revenue	13,900	24,765	77.4

## IS THERE A PLUMBERS' COMBINE IN CALGARY

President of Master Plumbers' Association Appearing in Court in Calgary Today to Answer Charge Made by Non-Member of Association.

Calgary, Alberta, June 29.—Whether Calgary is suffering from an alleged combine of plumbers has not yet been decided. It is a question to be settled in the courts today, when E. J. Young, president of the Master Plumbers' Association, is scheduled to appear at the Alberta Superior Court, Calgary, to answer a charge made by a non-member of the association, who alleges a combine of plumbers to exist in Calgary.

The case is one of extreme interest from the allegation of the complainant that the whole trouble is caused because he is not a member of the Master Plumbers' Association and that he was discriminated against by the wholesalers because of that fact. He alleges that his goods are quoted at a much higher rate than those given the members of the Master Plumbers' Association, and in some cases he says they are as much as twenty per cent. higher. On this account he cannot compete on the same terms as other members of the trade, he being a member of the Master Plumbers' Association.

**ASKS EMPLOYEES TO PAY.**  
Omaha, Neb., June 29.—As the result of the recent strike at the Nebraska, where the loss was \$250,000, every employee of the Burlington road system has been asked to perform some act of economy which will help to offset the loss.

The request came direct from the president of the Burlington system, and every man and woman in the employ of the system. In addition the order came from President Miller to cut all expenses to the minimum.

The wreck which brought about the strike in the Burlington system was caused by a fire which destroyed the engine house at Omaha. The fire was caused by a short circuit in the main line, and it was not until the engine house was rebuilt that the system was able to operate again.

Placed in the care of the Burlington system through the efforts of the United Aids he had recovered sufficiently yesterday to make the journey home, and his fare being provided, started on his way.

Many a mother care is brought to the attention of the Aids.

## TURKEY RED WILL MAKE A RECORD

Fall Wheat Cutting in the South to Begin Very Soon.

Winnipeg, June 29.—Northwestern farmers are making a very early start on the spring wheat crop of the south. The cutting of the wheat is well advanced in many places, and it is expected that the crop will be a record one.

The rain in Saskatchewan, which now contributes the larger part of the spring wheat yield, have been moderate and rain has been frequent. The wheat is in good condition, and it is expected that the crop will be a record one.

Reports from Saskatchewan and Alberta still continue on the top note of optimism. The wheat is in good condition, and it is expected that the crop will be a record one.

The increase in volume of public business is shown in the following figures for the first six months of 1911 and 1910.

	June, 1910.	June, 1911.	Per cent.
Bank Clearings	\$29,222,219	\$51,812,725	77.3
Customs Duties	1,046,725	1,222,502	22.5

## Hon. Frank Oliver, Hon. Dur can Marshall and Dr. Clark, M.P., Add a Political Picnic at Olds.

Olds, Alta., June 29.—A political picnic was held yesterday at the farm of Dr. Clark, M.P., near three hundred were present, despite the driving rain which fell. Hon. Frank Oliver, minister of the interior, Hon. Dur can Marshall, minister of agriculture, and Dr. Clark, M.P., for Olds and Red Deer, were present. The residents of the surrounding district there was a number present from the towns of Olds and Red Deer. J. E. Shaffer, M.P., for Calgary and Olds, and W. Smith, of Red Deer, were among those who attended.

Mr. Oliver will address a number of meetings before returning to Ottawa for the re-assembly of Parliament. He will speak at St. Albert on the third and at Athabasca Landing on the fifth of July. Other gatherings have yet to be arranged for this province. On his way to Ottawa the minister will speak at several points in Saskatchewan.

## Walked From Edson to Grande Prairie and Back

John Allan, of Seattle Undertakes Jaunt of over 600 Miles in Order to Locate Homestead in Fertile Northwest Country

John Allan, of Seattle, came today, and before he had a long day today at the St. James Hotel, where he is a guest. Mr. Allan reached Edmonton last night on his way from the Grande Prairie, where he had been on a homestead jaunt. He had walked from Edson to Grande Prairie and back, a distance of over 600 miles. He had been on the road for several days, and he had been very tired. He had been walking for several days, and he had been very tired. He had been walking for several days, and he had been very tired.

Mr. Allan, who is a well-known explorer, had been on the road for several days, and he had been very tired. He had been walking for several days, and he had been very tired. He had been walking for several days, and he had been very tired. He had been walking for several days, and he had been very tired.

## THE CASE FOR THE ANTS.

The carnival of incandescence having now lasted for six months, may be taken to have exhausted pretty well the possibilities of the case. It is well, therefore, to take up a collection of the excuses offered for the opposition to reciprocity. The first excuse is that these in their proper and logical order. Following are appended a few of the arguments commonly used against the acceptance of the agreement, arranged somewhat differently than they are commonly used, so that reciprocity orators and newspapers, but in the order which seems best to bring out the inherent merit of each and to give play to the cumulative effect of the series.

Canadian loyalty is too virile to be affected by self-interest; Canadian loyalty is too weak to stand the shock of selfishness brought to the front.

The price of wheat in Liverpool has the price in Canada. Under reciprocity the price of wheat in Canada would be fixed on an export basis.

The Hudson Bay railway will be of no use if reciprocity is adopted because Canadian grain will go south.

The United States farmer is fighting reciprocity through fear that Canadian products will flood his home market.

Reciprocity will increase the price of farm products in Canada. Reciprocity will reduce the price of farm products in Canada.

There should be no action to decide this reciprocity question. Reciprocity should not be the only issue in an election, if one is held.

Reciprocity in the Empire is the thing to be aimed at. There should be no further restriction on the import of British goods, though Great Britain admits Canadian products free of duty.

The fact that Canadians many years ago decided for reciprocity is not a good reason why they should do so again. The fact that Canadians many years ago decided for protection is a good reason why they should do so again.

The Liberals have not reduced the tariff as much as they might have done. A protestant government should be interrupted between the representatives of the people and the tariff.

The Canadian farmer will not find it better while the tariff is in force. In the United States Canadian farm products will go to the United States markets so largely that the Canadian railways will lose most of their traffic.

The United States would have reduced the duty on Canadian farm products if there had been no reciprocity agreement. If there had been no reciprocity agreement the United States government would not have been able to carry a reduction of the duties on Canadian farm products against the hostility of the United States farmer.

The United States is a great protective country, over-ruled by trusts and combines. Canada should be a great protective country, too.

Wheat on the average is worth more in Minneapolis than in Winnipeg. The Canadian farmer will get no more for his wheat in Minneapolis than he gets in Winnipeg.

Canada will be over-flooded by cheap produce from the United States, Denmark, the Argentine, etc., if reciprocity is adopted. The Canadian workman will have to pay more for his products if reciprocity goes into force.

It is foolish to say that the Canadian "interests" are protected by reciprocity, for reciprocity affects farm products in the main. Reciprocity is only the beginning, and the farmer is allowed to have this measure of free trade he will clamor for more.

The United States farmer is favorable to the reciprocity agreement. There is hope that the high tariff party in the United States will be able to defeat reciprocity.

One bright week has discovered that reciprocity will increase the demand for divorce in Canada, thus leading perhaps to the establishment of divorce courts, which some Opposition gentlemen and party have advocated rather warmly.

THREE THINGS OPPOSED.  
In reply to the United Farmer's declaration Mr. Jordan's objection to a statement that the Opposition had not up-to-date the candidature on the immigration campaign. He is right. They have opposed it repeatedly and

thoroughly. And when in power they practiced what they now preach, with consequences which they like to think about.

The leader of the opposition to the reciprocity movement is the Hon. Mr. Jordan, one of the members instrumental in passing the agreement to the House of Commons.

Mr. Jordan is a member of the House of Commons, and is a member of the House of Commons, and is a member of the House of Commons.

Mr. Jordan is a member of the House of Commons, and is a member of the House of Commons, and is a member of the House of Commons.

Mr. Jordan is a member of the House of Commons, and is a member of the House of Commons, and is a member of the House of Commons.

## COWAN'S PERFECTION COCOA

"Great for Breakfast."

A day started on Cowan's Cocoa is a day with a clear head and a steady nerve—a day of up and down—Cocoa nourishes the body. It is rich in food value and easy to digest.

DO YOU USE COWAN'S COCOA?

The Northern lights when they come. They're very hard to beat. But watch them when they say "Look! It's crazy with the heat."

But still when they're out on parade "They're down and low, but when it comes they shout and they're up to the nose."

And then they shout, "Wait, watch my snore." And say, "Keep off my head. I know they're coming on again. It's crazy with the heat."

Then Captain Barney, he comes out in his chariot in his hand, And shouts, "I hear the spheres, And all this barren land."

"Fall in," he said, "For grub parade, And get your old bull back. Look on!" he shouts, "They're coming on. It's crazy with the heat."

The Ladies of Edmonton May Now Have Beautiful Hair. Archibald has the Artical and Guarantees it to Grow Hair, or Refund Your Money.

Archibald, the chemist, backed up by the manufacturers at SALVIA, the Great Hair Grower, guarantees it to grow hair. SALVIA destroys Dandruff in ten days.

The roots of the hair are so nourished and fed that a new crop of hair grows up, to the amazement and delight of the user. The hair is made to grow and is healthy. All hair preparations SALVIA is daily prepared.

It is hard to find an actress who does not use SALVIA continually. SALVIA is a non-toxic preparation, and is the ladies' favorite. A large number of testimonials are given by Scott-Dugg Co. St. Catharines, Canadian Drug Co.

and that was a long step for a Tory to take, since at the time his colleagues and his leader were pro-Canadian and the latter were pro-Canadian because he was a Tory. He was a Tory because he was a Tory and that was a long step for a Tory to take, since at the time his colleagues and his leader were pro-Canadian and the latter were pro-Canadian because he was a Tory.

It was just plain sense, and it was honest, that made Andrew Jordan talk that way, and it was of the same kind that made him

## SERIOUS CHARGE AGAINST MAYOR

Chief Magistrate of Cass  
Lake is Accused of In-  
cendiarism

Hemlock, Minn., June 29.—In a  
graphic recital of how he and Mike  
Juvie Bonnett with Dr. Dumas, Mayor  
of Cass Lake, for the robbery and  
burning of the post office building in  
Pepusky, Marquette County, Minn., he  
wounded in the fight, at the preliminary  
hearing, which opened this morning  
at the district court here, the charge  
of incendiarism was made against the  
mayor.

Hehan, although weak from a  
shot received at the time of his cap-  
ture early on the morning of June 27,  
following the battle of Pepusky, told  
an interesting story of evidence, told  
from his list that sent the color  
to the face of the Cass Lake mayor,  
who during all the dramatic recital  
leaned forward in his chair. When  
Hehan told of the saloon meeting  
which he said was called by Dr. Du-  
mas for the purpose of cracking the  
post office safe with dynamite, and  
burning the building with turpentine  
and oil, the doctor's face lost its  
smile for the first time since his ar-  
rest. Hehan's open court confession  
was a vindication of the detective  
story of the holdup and confirms that  
all reported suspicion that it was  
"Mike" Juvie who snatched him in the  
Pepusky affair.

Hehan implicated R. B. Smith as  
one of the prime movers in Dr. Du-  
mas's of the Pepusky attempted ro-  
bbery and it was he said Hehan, who  
furnished the key to the Pepusky  
store and that he was to supply the  
turpentine and oil with which the  
building was to be saturated after the  
safe was blown.

Without hesitation Hehan told the  
story of the robbery going into every  
detail. He painted out Dr. Dumas  
as the open court as the man who  
participated in the saloon confession.  
The court room was filled many per-  
sons standing. The judge took the pri-  
soner shortly before noon and pit him  
through a grilling cross-examination.  
In the background of this story are  
a series of fires which the state will  
attempt it is understood, to connect  
the mayor of Cass Lake and his gang.  
Lenses aggregate over half a million  
dollars.

The work of the state fire marshal's  
department is responsible for the  
recent activity in running down the  
charges with burning the buildings.  
Investigators of the state fire marshal's  
office has been an ornamental political  
adversely labeled because of the lack of  
funds. The last legislature passed a  
law which gives to the department  
new headed by state Fire Marshal  
Kaiser one-fourth of one per cent. of  
the net premiums of the insurance  
companies which will amount to this  
year to something like \$19,000.

## PRINCE ALBERT AT WAR WITH THE C.N.R.

Board of Trade are Incensed at Cur-  
tailment of Service and are Threat-  
ening to Hostile Their Freight by  
Way of the Grand Trunk Pacific.

Prince Albert, June 29.—The city  
is in revolt against the Canadian Nor-  
thern Railway, and tonight at the  
quarterly meeting of the board of  
trade, A. H. Woodman, advocated  
amid applause that the business men  
get together and have all their freight  
sent round to Saskatoon over the  
Grand Trunk Pacific, instead of direct  
to Prince Albert over the Canadian  
Northern.

The situation has been created by  
the deal which the Canadian Nor-  
thern gave Prince Albert when the  
passenger service to this city was cut-  
tailed and the Saskatchewan express  
was cut out.

The board heartily agreed with Mr.  
Woodman's proposal and passed a re-  
solution to have the C. N. R. officials  
come to Prince Albert and see if it  
could not be arranged to reach completion  
of the G.T.P.'s line into this city.  
The business men at the meeting felt  
certain that they could secure the  
maximum support of the merchants  
of the city and the suggestion of Mr.  
Woodman as to the routing of freight  
will undoubtedly be acted upon.

In the previous report, the  
last conference the board of trade  
had with the C. N. R. officials, the  
passenger service the representa-  
tives of these officials were character-  
ized as not as results but as "soft  
work."

## SESSIONAL INDEMNITY.

Cheques are Being Sent Out at Otta-  
wa for the Pay for Members.

Ottawa, June 29.—The house of com-  
mons accountants are today sending  
out the indemnity earned by the  
members during the month of June.  
The house was not working the  
money sent out on a basis of  
dollars a day for the thirty days  
of June or \$300 to each member. In  
most cases the members furnished  
the customary documents, but a few  
omitted the affidavits required by the  
act. The accountants will add to  
them of the error and in the mean-  
time the money stays in Ottawa.  
There will be no more payment this  
season, the installment of \$210 being  
forthcoming August 1st. After that  
there will be no payment and no fines for  
non-attendance.

## Tried to Commit Suicide.

Niagara-on-the-Lake, Ont., June 29  
—James Court, cook for the Army  
Navy Service Corps attempted to commit  
suicide by cutting his throat with a  
jackknife. It is thought that his brain  
was affected by the extreme heat of  
the last few days. Calling like a  
maniac with his throat cut from ear  
to ear with the blood streaming from  
the wound he was found near Virel,  
between Niagara and St. Catharines  
and was hurried to the emergency hospi-  
tal in the ambulance. He will recover.

## NEW PACT SOON TO BE SIGNED

Britain and U. S. Could  
Settle All Formalities in  
Few Hours

Washington, June 29.—All formalities  
necessary in the final conclusion  
of the general arbitration treaty be-  
tween America and Great Britain  
could be completed within four hours  
assuming that the machinery was  
working smoothly and smoothly was  
the official declaration today. The  
difficulties between the two countries  
now relate merely to parliamentary and  
can really be adjusted.

The British ambassador has full  
power to sign the treaty and the ad-  
ministration so far has failed to find  
any signs of objection to the com-  
pact on the part of the senate.

It is distinctly stated, that not-  
withstanding an impression to the  
contrary, the treaty concerns to the  
utmost the constitutional powers of  
the Senate in treaty making and that  
every question to be submitted to ar-  
bitration must first receive the ap-  
proval of the senate but it is pointed  
out that the very negotiations of the  
treaty will almost certainly have the  
effect of lessening the number of is-  
sues to be considered. This is explained  
by the fact that through the crea-  
tion of a commission of inquiry, com-  
posed of disinterested members of the  
House of Commons and of the House of  
Representatives, the two govern-  
ments can be settled satisfactorily by  
the adoption of findings of that com-  
mission and without the necessity of  
proceeding to arbitration.

Unofficial advice indicates that the  
French government is practically  
ready to enter into treaty relations  
with America on the basis of Secre-  
tary Knox's proposal and it is prob-  
able that action may be had in that di-  
rection soon after Ambassador Jusserand  
arrives in Paris and has had an op-  
portunity to confer with the foreign  
office officials.

## Germany Not Heard From.

Nothing definite has been heard  
from Germany since the Knox propo-  
sal was handed to Ambassador Jusserand  
upon his application. Holland  
also has been furnished with a copy  
of the projected treaty and other na-  
tions are showing marked interest in  
the subject.

An interesting feature of the pro-  
jected treaty in the provision for the  
reference of issues to a tribunal,  
which is so framed as to force the  
creation of the permanent court of  
arbitration towards which the admin-  
istration is steadily working.

London, June 29.—H. Barber, an  
author expert, and inventor, has docu-  
mented to the British Government four  
military appliances. Two of these will  
be sent to the navy and two to the  
army.

## ALL READY FOR CALGARY FAIR

Exhibitors Promise to be the Largest in  
the History of the Province. Every-  
thing is in shape for the Com-  
mencement on Saturday.

Calgary, June 29.—Everything is  
in trim, everything is approaching  
completion, everything is almost  
ready for the commencement to-  
morrow of the largest fair which Alberta  
has ever seen. Exhibitors are busy  
moving in their goods, horse and live  
stock of all kinds are making their  
way to the accommodation which has  
been provided for them, and the  
Canadian people are spreading  
their patriotic signs to the four  
corners of the province.

The grounds look far more  
attractive than they did last year. The  
various specimens in the "experi-  
mental" department reached the fair  
grounds and are being placed in the  
buildings which they can hardly see while  
the row of young trees which line the  
walk from the main entrance to the  
west to the doors of the industrial  
building add another welcome touch  
of freshness to the whole. The sunken  
garden is looking beautiful.

Four additional horse stables have  
been provided, a new kennel show  
building has been put up, and the  
building of the new arena stands out  
prominently among the great mass of  
buildings.

Almost fourteen hundred entries  
have been received in the live stock  
classes which are made up as fol-  
lows: Horses, 700; cattle, 400; sheep,  
and swine 200. Although the new ken-  
nel building houses far more ac-  
commodation than the structure  
which it displaces for the same pur-  
pose last year, it will be crowded to  
its utmost capacity, as the number of  
entries which have ever been received  
before.

So great has been the demand for  
concessions from the course of side-  
shows that all the usual space has  
been reserved in time ago and the  
management have been compelled to  
set apart a strip of ground facing the  
grand stand to the north. The crowd  
monstrous will be explained and de-  
monstrated daily by the workers. This  
attraction will be found at a spot  
west of the sunken gardens.

## TWO FATALITIES AT PEGL.

Man Jumped Off Train, Crushing His  
Head in the Pull-Louder Engine  
and a Live Wire.

Winning, June 29.—Two fatalities  
occurred within a few hundred yards  
of each other this evening in Peg-  
ler. A Canadian, named Sher-  
lock, address unknown, got on the  
Grand Trunk Pacific train going west  
instead of the C.N.R. for Prince Al-  
bert, and finding out his mistake at  
the Pembina station, jumped from  
the train, crushing his head in the  
fall. He is supposed to be from To-  
ronto.

The other case was that of a for-  
eigner, Alex. Signor, who picked up  
a live wire while at work in the C.  
N. R. shop, Port Hope. He was  
dead when help arrived. Inquests  
are likely in both cases.

## PROPORTIONATE REPRESENTATION

Plans for Better Results  
Suggested by Sir Richard  
Cartwright

Toronto, June 29.—A plan to obtain  
more equal representation of the Lib-  
eral and Conservative parties especial-  
ly in the large centres of population  
such as Toronto was introduced by  
the speech of Sir Richard Cartwright  
at the dinner given last night by  
the Toronto Reform Association. Sir  
Richard's plan is in that of propo-  
rionate representation, obtained by  
arranging of the constituencies in dis-  
trict.

For example where at present all  
the seats are conservative in parts of  
the country where the majority of  
voters are Conservative, under the  
proposed arrangement, each party  
would hold seats in proportion to the  
total vote cast.

This is not a government pro-  
positional, Sir Richard declared to  
a reporter after his speech. "It is  
simply free advice of one candidate  
to a gathering of Canadians and it is  
not taken as an official statement  
of any intention regarding the forth-  
coming redistribution in Toronto."

In his address Sir Richard pointed  
out that while there were probably  
thirty thousand Liberals to thirty-five  
thousand Conservatives in Toronto,  
only one Liberal had been elected here  
in thirty years. A similar condition  
but in the Liberal favor existed in  
New Brunswick. Sir Richard con-  
cluded that these conditions were a  
manifest injustice to the large mass  
of cities and were thereby practically  
disfranchised. A plan of proportion-  
ate representation he contended  
would reduce the turmoil of elec-  
tions, raise the standard of politics  
and attract a superior class of con-  
didates. It would be the salvation of  
party government shown to the world  
and he hoped to see Canada take the  
lead.

Sir Richard deprecated any exten-  
sive discussion of reciprocity at this  
time, although as he understood that  
over three hundred speeches had  
been given on the subject in the  
past few months. He felt his hearers  
were "full up" on the subject.

## MONTREAL MUST IMPROVE

If the Whishes to Retain Hold as Na-  
tional Center For Western Goods  
Must Improve Facilities.

Montreal, June 29.—Montreal  
wishes to retain her hold as the na-  
tural outlet for western grain, must  
rapidly provide more storage ca-  
pacity and improved methods of  
loading and discharging cargo,"  
said A. A. Wright, of the Lake-  
rance and Chicago Navigation Co.,  
of Toronto today.

Mr. Wright and other grain ship-  
pers constituting a delegation in the  
Hamilton Marine Association, visited  
the harbor commissionery and pre-  
sented a series of complaints.

These Tasted Ours Please are most nourishing with milk, cream or  
fruit. Order a package from your grocer today.  
A dish in every package.

IMPERIAL BANK BUILD'G

of August, but there is reasonable ground for believing that by the

At August, but there is reasonable ground for believing that by far the most serious major cause of loss is a good amount of themselves without any further assistance from Jupiter. The reason for this is that the moisture it is pardonable to suppose that excessive rainfall will have caused as much damage this year as the shortage of rain.

**Some of the Dangers.**

Another great loss to agricultural science is the loss of the crop. The average injury from this cause in a series of years is incalculable, but its effects are usually very serious. It is usually occurred in seasons when the growth was backward, and when a sudden increase in the temperature in order to bring the crop to maturity within a reasonable time. No such increase in the temperature of the air, as has been mentioned, is about two weeks ahead of time, and this is a very serious loss to the farmer. The benefit when the ripening period come due. With a fair show of rain, the crop will be ready to be busy by the middle of August, and

weather during that month can cause any damage from frost. Hail is an unlikely occurrence, which can be said to be liable to hit any spot in the whole west, and no amount of precaution or care can repel it. It is utterly and totally destructive, giving no chance of recovery to the growing, which it strikes. It seldom effects a large area in a particular season. Its range is usually confined to a few sections, and which may be many miles apart. Storms during the growing season, too, the aggregate loss is comparatively small.

**The Insect Family.**

The other great enemy of crop destroyers is the insect family, and in this branch may be included rust. The latter has been known to work

It may not immediately diminish the total production it may have deteriorating effects upon the quality of the grain itself. Nothing has been heard of rust, so far this season, and there are no indications to the effect that it may interfere with a successful harvest. It is always to be regarded, however, as a possibility, and the country will not breathe freely until the Nightingale of Jamaica, from this

is being displayed in some parts of Manitoba about the presence of grasshoppers. They do not usually come in a wet season, and there is no apparent explanation for their advent this year, nor is there any definite information to prove that they have caused any damage. If they should increase and spread they could easily change the face of the whole situation.

A safe estimate of the probable outcome can only be made when all possible dangers have been carefully weighed. The development during the first half of the season has been uniformly favorable on the whole, and there is every justification for hoping that this encouraging state of affairs will continue. It is certain that the brilliant prospects for the

usual amount of enthusiasm throughout the three Provinces, and there is an almost general belief that the results will be most satisfactory. Much gratitude is due to the weather for the kindness it has displayed in the first two months of the season. All that is necessary now is that this beneficence should not be withdrawn for the balance of the growing period.

**Figures of Wheat Acreage.**  
Figures issued by the Department of Agriculture of Saskatchewan all Regina tonight indicates that the total acreage under wheat in that Province is 5,595,225, an increase of 923,461, or just twenty per cent, as compared with 1932. The estimate for Manitoba is 3,329,072 acres, as compared with 3,115,992 a year ago, an increase of 213,080. The total for the

two provinces. The figures for Alberta are not yet available, but there will probably be nearly 1,000,000 acres under wheat there, as compared with 620,000 a year ago. This would bring the total for the three Provinces to nearly 10,000,000 acres, and it may be even larger when the figures are revised and corrected later on in the season.

## Be a Bit Curious

You have tried other brands of tea. Now try Blue Ribbon. Only in this way can you find out just how rich, strong and delicious Blue Ribbon is. No other tea compares with it. And if you don't find it superior to other tea, take back the packet—the grocer will refund your money.

## MINERS DISPUTE WILL BE SETTLED AT ONCE

Board of Conciliation Will Report Immediately After Hearing Arguments of Miners and Operators. Reports of Disputants Have Been Filed.

Edm., Alta., June 29.—After two days' delay, during which the two parties to the industrial dispute still pending in this district, have been preparing their statements, the conciliation board again convened this morning to receive the reports of the two committees called for by the chairman on Monday when he made his official request for consideration of the dispute. The board was willing to assume as the fact of the case the various points in dispute. There was some delay occasioned by the non-arrival of the operators' committee, but after receiving word from them that they would soon be ready to report the board resumed at the hall until the arrival of the delayed committee and the board was formally opened.

Some discussion took place regarding the scope to be taken in the argument upon the statement presented, and it was finally decided that the two statements should be filed with the board and the matter of argument be taken up later. Mr. Rube, of the miners' committee, reported that they had prepared a statement as to the wages scale but had not completed that part covering the general provisions of the proposed agreement.

Chairman Rickett, for the operators, stated that they had prepared a statement covering the whole case and as there might be some confusion arising out of the presentation of a partial report from one side and a complete one from the other, it was finally decided to adhere to four o'clock in the afternoon to permit the miners to consolidate their reports in one document.

The chairman was averse to allowing separate statements and arguments being presented for each mine in the district, and adhered to the plan of a summary statement covering all the conditions into which the enquiry has been pursued. If the operators were permitted to take up each separate mine, the mine workers, as pointed out by Mr. Rube, would necessarily follow with the grievances of each local union. This would prolong the controversy needlessly. The chairman made it plain that the board insisted upon complete statements being made by each side and that the arguments presented should be in each case independent of arguments or statements of the opposite side. This matter of procedure would be an after consideration.

The board returned to meet at 4 o'clock. The two statements were filed with the board late this afternoon and the two committees were designated until tomorrow to be called before the board at the instance of the chairman when it will be made known whether the margin of differences has been sufficiently narrowed to make possible a settlement between the parties before the board renders its decision.

## IS TRIPLE ALLIANCE NEARING A BREAK-UP?

Austria and Italy seem to be Under Strained Relations—Austria Emperor's Death, When It Occurs, May Precipitate Conflict.

Rome, June 28.—The celebration of the jubilee of Italian unity, with the exhibitions in Rome and in Turin, has emphasized the strangeness of the situation between Italy and Austria. Emperor Francis Joseph and the Government of the Dual Monarchy, alone of all the rulers and great powers, have sent no representation to the Italian celebration and it has been only in the most reluctant manner that Austria has participated in the International Exhibition of 1873 in Vienna, while she was the only nation which did not take part in the exhibition of Industries and Labor of Turin.

This is significant when we consider that Vienna and Rome have been allied as members of the Triple Alliance for nearly thirty years. Nor can it be said that Austria's attitude is inspired by a desire to spare the feelings of the Vatican, as Austria in 1879 was the first country to congratulate Italy over the fall of the Temporal Power, and the relations between the Austrian Government and the Holy See have been recently strained. The attitude of Austria is due to the ancient antagonism between the two countries, which is reaching a more acute stage now that the health of Emperor Francis Joseph is failing and the rules of the Dual Monarchy are practically in the hands of the Crown Prince, Archduke Francis Ferdinand.

### A Magic Life.

The old Emperor has witnessed during his long reign greater political and family catastrophes than any other living sovereign, since the accession, perhaps, of King Manuel of Portugal. He went from the defeat of Sadowa to the loss of Lombardy and Venetia, from the irreparable injury of Emperor Elizabeth to her murder by an anarchist, besides that yet unexplained tragedy which led to the death of his only son, Archduke Rudolph.

Such a succession of sorrows, indeed the venerable monarch to be strongly opposed to his country participating in any conflict, and the one which might have been the most probable was avoided through the alliance with Italy and Germany, and the instant respect that the aged ruler inspired throughout Europe.

### What May Come.

His successor will not command the same influence, as that the disappearance of Francis Joseph, while he has a capital influence in the foreign policy of Europe, it being doubtful that he will maintain the present attitude of submission to Germany, while his intrigues in Austria may revive in Austria the "Lords of Rome" movement, and cause a rupture with Italy, which would not please even the Vatican, as Pius X. is averse to any event which might

## SENTENCE IS SUSPENDED.

Calgary Detective Who Ran Amuck Allowed to Go.

Calgary, June 29.—Detective Cameron, who ran amuck in the early hours of Wednesday morning and endeavored to shoot up the town from the inside of the Royal Hotel, came up for trial on Wednesday afternoon before Justice of the Peace Duran.

Cameron was allowed to go on suspended sentence, with the provision that he pay the damage to the personified hotel window and which will amount to about fifty or sixty dollars. The policeman made things very interesting for his brother officers inside the station after his arrest, as he was exceptionally strong, which, together with his crazed condition, made him doubly powerful. Upon being taken from the cells in "no morning his mind was a complete blank relative to the preceding evening and he cried with the abandon of a child when the situation was explained to him.

The officer has only been out from England a few months when he obtained his appointment as a plain clothes man. He is said that a young lady is en route from England whom he expected to marry on his arrival.

## STEAMSHIP LINES MAKE SETTLEMENT.

Liverpool, June 29.—The nine steamship lines figuring in the sea-scare strike have come to a settlement. Among them are the C.P.R. and Allen & Lines.

## SUNSHINE FURNACE

NOT SHAKING. JUST A GENTLE ROCKING OF THE LEVER.

Shaking is a hard, back-breaking exercise, peculiar to common furnaces, while you can stand erect at the Sunshine—and moving the lever, to and fro, about half the length of your arm, a few times, is mere play. A child can easily do it.

Grates of the Sunshine are in two sections—right and left. By gently rocking the lever, a few times, the ashes are released from the right. Repeat the operation on the left and the ashes from that side drop into the ash-pans, too. You couldn't wish for anything easier than the Sunshine Method.

When this lever is not in use it can be connected from the grates and the opening capped. But when connected it fills up the opening so snugly that no dust from the falling ashes can escape.

Every detail is thought of on the "Sunshine"—that's what makes it the best.

If your local dealer does not handle the "Sunshine," write direct to us for FREE BOOKLET.

## McClary's

## The Canadian Newspaper Directory for 1911

We have just received from the publishers, A. McKim, Limited, of Montreal and Toronto, a copy of the 1911 Edition of the Canadian Newspaper Directory.

This is the seventh edition of this valuable work, which has a very real need in Canada, and deserves a place on the desk of every business man, whether he is an advertiser or not.

The Canadian Newspaper Directory lists and describes 1,124 periodicals in Canada and Newfoundland. Of these 116 are daily, 1,102 weekly or semi-weekly, 245 monthly or semi-monthly, and 22 are published less frequently. This is a considerable increase over the last edition.

In addition to this, the Directory supplies a comprehensive Gazetteer giving the population, the chief industries, the railway, telegraph and banking facilities and other interesting features of every newspaper city, town and village in Canada.

This work contains over 475 pages, 82.00.

It is splendidly bound and is certainly a credit alike to the publisher and to Canadian newspapers generally.

A. McKim, Limited, are particularly well qualified to edit and publish this, the standard book of reference on Canadian publications. They are the publishers in the Advertising Agency field in the Dominion, the McKim Agency having been founded in Montreal in January, 1885, twenty-two years ago by St. Asen McKim, who is still at the head of the business.

During all this time they have been the acknowledged leaders in this line in Canada, and the Agency business has been developed from a very small beginning—then performing only the functions of the middle-man—to a very large producing enterprise which runs into the millions.

It goes without saying then that no other Agency is in closer touch with the publishers of the Dominion than McKim's, and they are therefore able to get the most reliable information. The price of the 1911 Directory is \$2.00.

In placing this property on the market we are giving you an OPPORTUNITY for investment that will net you a handsome PROFIT in a short time on a small amount of capital. This property is situated on Alberta Avenue, adjoining the city limits. It is intersected by the St. Albert road, making access to the city very easy. Alberta Avenue is bound to become a business street. Take a map of the city and you will see that north from Jasper Avenue there is no street running east and west which has such great advantages as Alberta Avenue. These lots on Alberta Avenue are 50x125 deep, the others 50x140.

# THEY FIGHT IN THE U. S. SENATE

Senator Cummins Makes a Strong Speech on the Reciprocity Agreement—Says Canada Can Adopt Tariff Alone.

Washington, D.C., June 29.—Senator Cummins continued his argument against the Canadian reciprocity bill in the Senate today but did not conclude. He attacked the measure from the standpoint not only of its policy, but of the ground that it was not properly drawn as a tariff law.

If passed in its present form, Senator Cummins declared, the measure would give Canada the option of reclaiming one-half of it without accepting it all. This statement, explained by the fact that the Senate, many members questioning the interpretation thus put upon the bill as to its effect.

Senator Cummins declared the passage of the bill would be followed by a storm of disapproval against the United States.

He said it would be accepted by the agricultural interests as notice that Canada had determined to stand on its own feet.

He was not entitled to the same consideration as his lands were given on to the other producers of the land.

# HEAVY SENTENCES FOR YOUNG ROWDIES

Several Magistrates Impose Severe Sentences on Captives in Police Crusade Against Rowdies on Sunday in New York.

New York, June 29.—Several sentences were imposed in severe sentences today yesterday upon young men convicted of rowdism, in a campaign waged against them by the "strong-arm" squad, numbering one hundred policemen, detailed for the purpose, and by the city authorities.

In the Manhattan avenue police court, Brooklyn, Magistrate Bodt sentenced three young men to three days in the workhouse. They were Henry Hentz, of No. 103 Bushwick avenue, Otto Schimmer, of No. 174 Monroe avenue, and Frank Foster, of No. 319 Mott street.

They were arrested on a Grand street car early Sunday morning. Nine other prisoners were warned not to appear again.

Alfred Rine, sixteen years old, of No. 15 Hester street, Manhattan, arrested for attacking a guard on a West End train, Casey Island, was sentenced to the workhouse for thirty days by Magistrate McGuire in the Court House.

Guire also dealt out ten day sentences to John Logan, of No. 115 East 10th street, John O'Neill, of No. 618 Third avenue, Brooklyn, and Robert Truxell, an automobile demonstrator, of No. 127 West 86th street.

# TRAIN COLLISION AT PHILADELPHIA

Engine and One Passenger Probably Fatally Injured and Twenty Others Seriously Injured When Express Double Into Front of Freight Locomotive.

Philadelphia, June 29.—The engine and one passenger were probably fatally injured and twenty others seriously injured and twenty others seriously injured when an express double locomotive ran into the front of a freight locomotive at Philadelphia.

After the engine had crashed into the freight locomotive, the freight locomotive was thrown on its side. The cars were filled with passengers, who were thrown into a panic.

Need 100 Men for Work. Toronto, June 29.—The home mission cause of Methodism in the four western provinces requires immediately one hundred new workers.

Dr. James Woodworth, senior assistant of the home mission society, is on his way to England, where he hopes to obtain at least one hundred men. He leaves Friday in company with Rev. James Allen, general secretary of the Methodist mission, and will visit all the Methodist training colleges in his search.

Desperately Fleeing. St. Mary, June 29.—Richard Boyd, a farmer living a little distance from here, committed suicide by shooting himself with a shot gun.

He was found dead in the granary by one of his children. He had been suffering from a heart ailment, and he had been working in the granary for two months ago and he has been working ever since.

His wife and five children are left penniless by his tragedy.

# CLOSE RED DEER INDIAN SCHOOL

This is Recommendation of Executive Committee of Methodist General Board of Missions—Boarding schools at Saddle Lake, Hobbema and Neerby.

Toronto, June 29.—An important decision in missionary policy was today by the executive committee of the Methodist General Board of Missions in the adoption of a recommendation that the boarding schools at Saddle Lake, Hobbema and Neerby be closed.

The Dominion government would not agree to the closing of the boarding schools, costing probably \$25,000 a year, until the cost of the boarding schools is paid by the Dominion.

Rev. T. H. Shaw, general secretary of foreign missions was authorized to arrange a conference of the Indian workers in British Columbia in August, probably at Port Simpson, with a view to developing and reconstructing the missionary policy affecting the Indians.

Constables' Convention Held. Ottawa, June 29.—The chief constables convention ended tonight with a banquet. The officers elected were: President, Chief R. V. Chamberlain of Vancouver; vice-president, Chief Detective Carpenter, Montreal; secretary, Deputy Chief Stark, of Toronto.

Winipeg, June 29.—Dr. R. Adams, a local coal dealer, predicts a coal famine during the coming winter for Western Canada west of Winnipeg.

He says that the coal strike in Western Canada has caused a shortage of coal in the West.

The Y M C A is Going to Try and Teach All the Youngsters Over 11 Years of Age How to Swim — Classes Are to be Formed and Instructions Given Three Days a Week.

The Y.M.C.A. is going to start an active campaign to endeavor to teach all the boys in the city how to swim. Mr. Valentine, the physical instructor of the Y has been devoting considerable of his attention for some time past, instructing the boys in the junior division in the art of swim-

ming and now that he has just about completed his task, as every boy except one can go at least the length of the tank, he is looking for further fields to conquer. To be able to navigate in the water is a very useful and almost essential accomplishment and every person should be able to swim a small distance at least. It is the intention of Mr. Valentine to

give instructions to all boys over 11 years of age in the city, no matter whether they belong to the Y or not. Special days have been set apart for this work, Monday, Wednesday and Friday being the days. All those boys who desire the teaching should put in an appearance at the Y as soon as possible. Classes

are to be arranged and each class will receive instructions at a different time. These swimming instructions are free to all the boys desiring them and all the youngsters should take advantage of the opportunity. Each one will be coached until he is able to swim at least the length of the tank, no matter how much time this should take.

**Flynn Confident of Victory**  
Kansas City, June 28.—One of the things which leads the followers of Jim Flynn to believe the Pueblo fireman will beat Carl Morris when they meet in the ring at Tulsa, Okla., July 4, is the fact that Flynn doesn't know the meaning of fear.

fairly. This distinction is worth more to Flynn than a million dollars. He cares nothing for money. He spends his earnings like a drunken sailor.

Those who know Flynn and have seen him wager to date more than \$2000 of his money on his chances at 10 to 8 against him, are confident

Flynn would consider it a nasty insult should anyone intimate that he is afraid to beat Morris right in Oklahoma, where Morris is such an idol. When this fight takes place there will be about 10,000 railroad men of the southwest, brothers of Morris in his chosen vocation, that of

engineer, in the arena. Flynn belongs to the Brotherhood of Locomotive Firemen and for this reason may have a few railroad friends himself. Flynn is to get \$5000 win, lose or draw, one-third of the moving picture rights and a privilege of thirty-five per cent. of the gross receipts.

Ottawa, June 29. — If the Capital lacrosse club fails to muster a winning team it will not be through lack of funds. Owner Sam Bisky has given Coach Alf. Smith a free hand, with instructions to get a winning team at once if it is necessary to bring the players from Vancouver. Smith has signed from Vancouver, Lodge and Armstrong.

It was also announced on good authority last night that Smith had closed with Clint Benedict, goalkeeper of Edinburgh hockey team, Allan cup holders, whom he has been after all season. Benedict is one of the

Smith, however, also has his troubles as well as his joys. Jack Shea, who resented Smith's criticism in the Capital-Tecumseh game, absolutely refuses to play again, and it now develops that Jack Ashfield has also

quit. The Capitals are thus practically devoid of the defense upon which they banked so highly at the beginning of the season. Marsh and Goodwin having hung up their sticks several weeks ago.

**Clarke Heads Nationals**

Only seventeen players in the Na-

over, and the list includes only three of the Phillies. Esmond and Suggs of Cincinnati are topping the list for high averages, but the honors belong to Fred Clarke of Pittsburgh who has a record, of .356 for forty games. Bates, formerly of the Philadelphia, but now with the Cincinnati, Bates is hammering the sphere

for an average of .330 for fifty-four games, and has passed Miller of Boston, who is hitting .323 for fifty games. Magee of the Phillies has dropped a few points, but his average of .327 shows he is still hitting the ball in good shape. Dooin and Lebert are the other Phillies who ran among the leaders.
